About the University

The University is destined to grow as a model security educational University of India. Its endeavours focus on highly professional security, strategic and defence education, research and training through its qualified civilian and military faculty, committed human resource, motivated participants and students, intellectually stimulating and professional disciplined environment and world-wide network, sharing and exchange. It aims at providing security and strategic education in the contemporary and futuristic security and strategic studies and interdisciplinary areas. The University contributes to vision of India of Peace, Prosperous and Stable World in alliance with grand strategic cooperation between like-minded nations and promoting greater understanding between senior military officers, diplomats, civil servants and civilians to promote the cause of the Nation.

About the School

The School of Criminal Law and Military Law (SCLML) aims to establish itself as a premier legal institution in the domain of Criminal and National Security Laws. It envisions to operate in accordance with global best practices and industry standards of legal education through research, innovation and extension activities for the advancement and dissemination of resourceful knowledge, research, training and scholarship in criminal and security laws. Its curriculum amalgamates theory with practise, keeping in mind the security needs in a much more globalized world. It endeavours to achieve excellence by not just providing a well-rounded legal education but also advancing legal scholarship, engaging in capacity building, serving the public and fostering justice.

About the Programme

The Faculty Development Program (FDP) on “Technology and Crime: Aligning New Criminal Laws with the Dynamic Field of Cybercrimes in India” is designed to provide legal educators, researchers, and professionals with a critical and contemporary understanding of how emerging technologies are transforming the landscape of crime and criminal justice. This programme explores the intersection of technology and crime in light of India’s new criminal laws—Bharatiya Nyaya Sanhita (BNS), Bharatiya Nagrik Suraksha Sanhita (BNSS), and Bharatiya Sakshya Adhiniyam (BSA). The programme will bridge the gap between technological advancements and legal education by engaging participants in in-depth discussions, case studies, policy evaluations, and teaching methodologies relevant to the digital age.

Objectives of the Programme

- To understand key cybercrime provisions under BNS, BNSS, and BSA.
- To analyze procedural innovations for digital investigations under BNSS.
- To evaluate evidentiary standards for electronic records under BSA.
- To examine legal challenges posed by AI, deepfakes, and emerging tech.
- To identify and interpret global trends and best practices in cybercrime law.
- To equip faculty with contemporary pedagogical tools for teaching tech-law.
- To promote curriculum development in cybercrime and digital justice.
- To facilitate dialogue between academia, law enforcement, and technologists.
- To encourage development of research projects in cyber law and policy.
- To highlight ethical considerations and rights in tech-enabled legal frameworks.
- To train participants in drafting policies or legal documents on tech-crimes.
- To raise awareness on privacy, surveillance, and data protection issues.

Themes of the programme:

- Reforms in Criminal Justice System: A shift towards technology leveraged justice
- Overview of New Criminal Codes (BNS, BNSS, BSA) in the Context of Cybercrime
- Evolution of Cybercrimes and Global Trends in Tech-enabled Offences
- Key Tech-Linked Offences under BNS: Identity Fraud, Online Stalking, Fraud
- Misuse of Technology in Human Trafficking: Prohibiting through BNS
- Role and significance of digital forensics in Tech-enabled offences
- Digital FIRs, Search & Seizure: BNSS Mechanisms for Tech Crimes
- Leveraging technology in prevention of organized crime and petty organized crime.
- Utilization of technology in forensic investigation of tech-enabled offences.
- Understanding the psychology of the cyber-criminals.
- Corporate Frauds and Regulatory framework: Moving beyond BNS
- Big Data, Predictive Policing, and Tech Ethics.

Eligible participants : Academicians, legal professionals, law enforcement officers, research scholars.

Methodology : Lectures will be delivered in online mode.

Date of Course: 25th August to 29th August

Last date of registration: August 22, 2025

Payment of Fees: 19th August, 2025

Online registration link: _____

Registration fees (Non-refundable) :

For RRU Staff & All PhD Scholars: **590/- (Incl. GST)**

For Others : **1180/- (Incl. GST)**

For Foreign National and Delegates: **1770/- (Incl. GST)**
